OXC 6653
Copy 5 of 6
23 March 1964

MEMORANDUM FOR: Deputy for Field Activities, OSA
                       Chief, Plans, FA, OSA
                       Chief, OXCART Division, OSA

SUBJECT: Fuel Computation for OXCART Vehicle

    1. During the past month efforts have been made by Automation Division programmers to build a fuel computation program model for the "OXCART" vehicle. Considerable difficulty has been encountered. In studying the programming aspects involved we have found problems that reflect directly on concept of operation, performance curves available, and pilot capability in the flight phases.

    2. These problems must be resolved before further efforts can go into the computer computation work. A meeting in OSA, Conference Room, 1000 hours, 24 March 1964 is scheduled for the purpose of discussion of these problems.
